GOLD CROWN LINO POLISH is equally admirable for use on furniture other than the French polished variety, and what is more, it is economical because the tin contains a full pound, sufficient for a very lengthy period. Also obtainable in small size tin if desired. At all Grocers and Storekeepers.

. WELCOME .

To our Visitors

THE Mayor of Bundaberg (Ald. B. McLean) and the Contest Committee, on behalf of the citizens, extend to you a hearty welcome to Bundaberg and to the Band Contest.

To Bundaberg has fallen the distinction of holding the first of the all-Australian Championship Contests under the scheme devised last April, when the Australian Band Council was formed; and it is anticipated that this contest will prove worthy of the important occasion.

Our city has a population of 11,500, almost the whole of which is dependent on the Sugar Industry of the district. The Millaquin, Qunaba, Bingera and Fairy-mead Mills, four of the leading sugar-mills of the State, are near the city, and employ thousands of men during the crushing season.

Other district industries are the manufacture of mining and sugar-crushing machinery, dairying, milling of district timber, distillation of alcohol from sugar by-products, and the breeding of stud cattle. There are also furniture, fish-curing, bacon-curing, pottery and agricultural machinery works, noted plant nurseries, and considerable fruit and poultry growing. The Foundry, Refinery, Distillery, Butter Factory, and Sawmills of our city are known throughout the State.

Attached to Bundaberg are the seaside resorts of Bargara and Nielson Park within suburban range and served daily by bus and by train; Burnett Heads, the mouth of the river 10 miles away; North Coast and Elliott Heads, 12 miles; at each of which surfing may be enjoyed in perfect safety. There are also the river resorts of Skyringville and the Kolan River, where excellent fishing may be obtained.

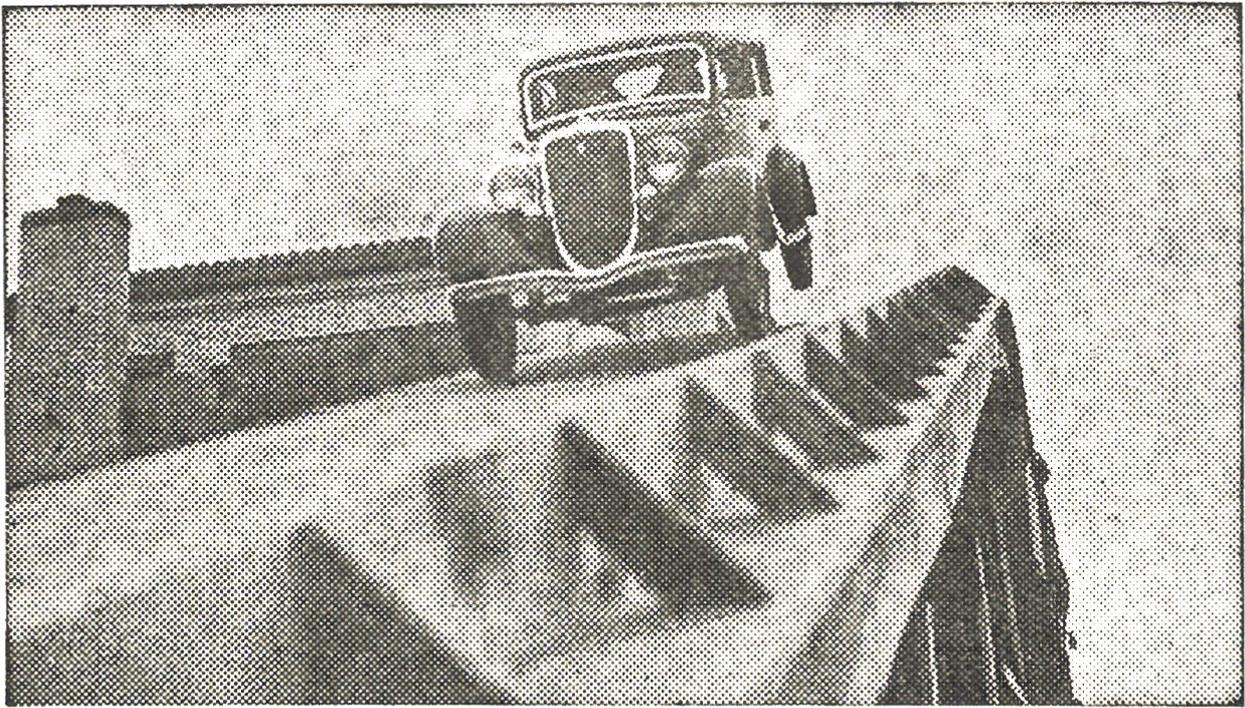

We wish you a pleasant stay in our city, and trust you will return some day to further enjoy the natural beauties of our district, which is climatically one of the most attractive localities in the State.

The Adjudicator.

Mr. Percy Jones, of Geelong, Victoria, is a musician of fine attainments, and as conductor, band trainer and adjudicator, is held in the highest esteem in musical circles.

In his early teens Mr. Jones proved himself a remarkable cornetist, winning the cornet championship two years in succession at South Street, Ballarat, with 99 points out of one hundred on each occasion. The eminent English adjudicator on the second of these performances, said, "the winner has stood absolutely alone; it would have taken John Paley, the champion cornetist of England, to beat him."

Mr. Jones was equally successful as Conductor of the famous St. Augustine's Boys' Band. He made its name a household word in Australia by the merit of its performances in winning the championship in A grade against all comers at Ballarat, and its subsequent tour of the Eastern States and Tasmania.

The Geelong public were not slow to recognise the talents of the rising young musician, and on the advice of Professor Marshall-Hall, the celebrated Orchestral Conductor, he was sent to Europe for further experience and study. Entering the Vienna Conservatorium he was immediately awarded a scholarship for his fine trumpet playing; here he studied pianoforte and composition under famous masters. Mr. Jones spent a period in Leipsic, Berlin, Brussels, Paris, Rome and London, becoming acquainted with the musical life, with particular reference to orchestral and band work.

After four years' study in Europe he returned to Geelong in 1911 and established himself in the practice of his profession as pianoforte teacher, band and orchestral conductor. The following year with the Geelong City Municipal Band he again annexed the A grade Championship at Ballarat, with Mr. Alf Gray, of Manchester, as adjudicator.

Immersed as he is in the work of his profession (he is conductor of the Geelong City Municipal Band, the St. Augustine's Boys' Band and instructor of the Corps' Band at the Geelong Grammar School, besides a large private clientele), Mr. Jones has not done much competitive work of late as competitor, but his services are in great demand as adjudicator throughout Australia. He judged the recently held Sydney Contest last January, the South Australian Band Championship at Tanunda last October, while he will officiate as one of three judges at the Victorian Grand Centenary Band Contests to be held next June in Melbourne.

A signal honour was also bestowed on him when he was selected by the Australian Broadcasting Commission as one of the judges of the Australian Composers' Competitions held in 1933.

PLAN OF QUICKSTEP DIAGRAM.

Explanation of Plan

Band will fall in in two ranks and dress at AA. Open for marching, and move off in quick time playing Quickstep March to point DD. Time and paces will be counted and timed between points BB and CC, which should be marched in one minute and 120 paces taken. For every pace under or over 120 one point will be deducted, and for every one-fifth of a second one-fifth of a point will be deducted. On arriving at point DD, Band will turn to left and march to point E, turn to the right and right wheel so as to place point F in front of centre of Band, halt and cease playing at end of the strain. Band will then move by the shortest way to point DD without playing and halt. (Bands will not be judged after ceasing playing at point F, until they are again ready to move off from point DD).

Band will then move off from point DD on word of command, playing the Quickstep March, wheel to the right and marching to points GG, wheeling to the left between them and marching to points HH, wheeling to the left after passing between them and marching to point AA, wheeling to the right and passing between them. On passing through point AA, Band will countermarch front to rear and from flank to flank; on completing countermarch Band will march to DD, where it will again countermarch from front to rear and from flank to flank as before, halt at point CC and cease playing at end of strain. After leaving point AA the first time Band will not again be dressed by word of command.
