Concession includes Pensioner, Health Card holder and student.

Children under 12 are admitted free.

Message from the Hon Dr Jane Lomax-Smith

Minister for Education and Children's Services and

Minister for Tourism

Welcome to the Australian National Band Championships 2005, and get ready for one of the biggest and best championships yet.

More than 60 bands and a record 500 soloists from all over Australia will compete at this year's event, so we can look forward to some wonderful music of a very high calibre.

The South Australian Government is pleased to support the Australian National Band Championships 2005, and it is fitting that one of the biggest events in the championships' history should be held in Adelaide, Australia's "Heart of the Arts".

Adelaide is a cosmopolitan, vibrant city, and its colourful city centre will make the perfect backdrop for one of the championships' highlights - the band marching competitions on Saturday morning.

South Australia's capital is also justly famous for its fabulous food and wine, so make sure you sample some for yourself between concerts at one of its many restaurants or cafes.

And if you have a free afternoon, a twenty-minute drive will take you to sandy white beaches or into the untouched bush land of the beautiful Adelaide Hills. Just an hour's drive away is one of the world's best wine regions, the Barossa.

So enjoy Adelaide, enjoy the music and best of luck to all the competitors!

South Australia
Relax, Indulge, Discover, Enjoy

LORD MAYOR'S WELCOME 2005 AUSTRALIAN NATIONAL BAND CHAMPIONSHIPS

Welcome to Adelaide.

It is my pleasure to welcome you to the 2005 Australian National Band Championships at the University of Adelaide.

Adelaide is an energetic City – a feast in every way – fine food, great wine, rich in the arts and the good life!

The University of Adelaide is located in Adelaide's CBD, within walking distance to a range of accommodation. You're just minutes from the most diverse shopping strip in the Southern Hemisphere, Rundle Mall and a stone's throw from the enticing tastes and smell sensations of the Central Market – Australia's largest undercover fresh food and produce market.

At the end of the day, you can enjoy the stimulating nightlife of Hindley Street and the West End or the bustling hub of the East End with its cafes, bars and restaurants.

North Terrace is a boulevard of galleries and museums, flowing into the serene, green Botanic Gardens and our relaxing and picturesque riverbank precinct and unique Parklands.

Everything is so readily accessible both within, and outside the City. You're just 20 minutes from the tranquillity of the Adelaide Hills to the east or a selection of superb, sandy beaches to the west and a short drive to some of the best wine country in Australia.

The 2005 Australian National Band Championships represents the highest level of achievement for musicians in the banding fraternity. The event is recognised throughout Australia and overseas as one of the most important dates on the banding calendar.

Adelaide warmly welcomes you and I sincerely hope your experience is an enjoyable and memorable one and that we see you back again soon.

Michael Harbison
Lord Mayor

A message from the
President of the National Band Council of Australia

Mr Geoff Fry

It is with a great deal of pleasure and extreme pride that I extend a warm welcome to the visiting bands, their supporters and visitors attending the National Band Championships in Adelaide this weekend.

I would like to express my personal thanks on behalf of the National Band Council to the Adelaide Contest Committee who have worked tirelessly and conscientiously to ensure that the Contest will be one to remember when discussing great contests.

To our Chief Music Adjudicators, Kevin Jarrett (NZ) and Barrie Gott (Brisbane – Australia) and all members of the adjudication panel, I extend to you a very warm welcome and hope your time in Adelaide is a memorable one.

May all those who have come to compete achieve the end result for which you have worked so hard. As musicians you have the unique position of being able to provide enjoyment for others while you strive to reach the top, and enjoy the spirit of friendly competition and comradeship which is a valued feature of our banding movement.

To the Sponsors, I thank you sincerely for your support, which I am sure has helped to make life easier for the organizing committee in the staging of this major event

To everyone, I wish you a happy Easter and a safe journey home.

PROFILE OF ADJUDICATORS

KEVIN LESLIE JARRETT

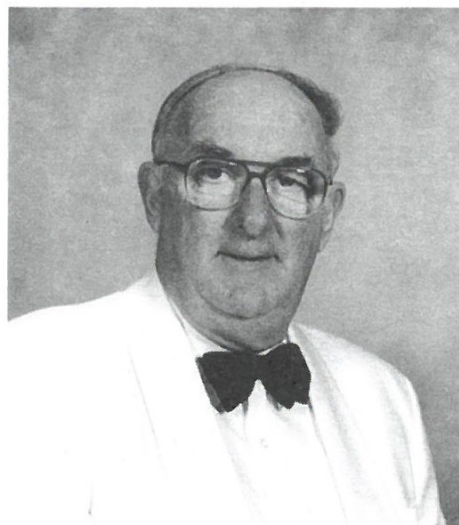

Kevin started his career as a musician in 1943 and won his first New Zealand title at the age of 10, when he won the Junior Cornet Championship. In 1957 he won the New Zealand Amateur Cornet Championship, in 1964 the Australian Cornet Championship and later the New Zealand Cornet Championship in 1970.

Kevin joined the New Zealand Army Band in 1965 and in 1967 was posted to Malaysia as solo cornet for the First Battalion, Royal New Zealand Infantry Regiment Band. As Bandmaster he went with this band to Singapore in 1971. During this posting he was awarded the ANZUK Force Commander's Commendation, the first New Zealand soldier to win this honour.

In 1975, Kevin returned to Wanganui to take up the appointment of conductor of the Tenderkist Wanganui City Silver Band. The band won the Australian A Grade title in 1988. Kevin won the Open Trumpet Solo at this contest.

During his 60 years involvement with brass bands, Kevin has been selected as a member of the National Band of New Zealand on 11 occasions and appointed four times as Music Director. Kevin has also been appointed as Musical Director of the National Youth Band of New Zealand three times and has been its mentor from 1996 until 2004. He is an accomplished adjudicator and has adjudicated in Australia at 16 different contests since 1998.

In 1996 Kevin was appointed National Director of Education for the New Zealand Brass Bands Association and he was awarded the MBE for his services to the brass band movement in New Zealand.

BARRIE GOTT. M.MUS. LTCL, A. Mus.A.

Barrie Gott began his professional career as a trumpet player with the National Training Orchestra and was a regular casual with the Sydney Symphony Orchestra.

Over the past 30 years his work in education has seen him teaching at primary, secondary and tertiary levels in New South Wales and Queensland as well as music director for bands in USA and Australia, and in California as Director of Instrumental Music at Azusa Pacific University where he conducted various ensembles and choirs as well as lecturing in arranging, conducting, orchestration and music theory. Barrie has also served as Music Director for the Salvation Army in Southern California and Eastern Australia.

He is a published composer in the United Kingdom, USA and Australia as well as being a commercial arranger with many credits internationally. As an adjudicator he has officiated at national, state and regional band contests as well as the Siddis entertainment contest in Norway and the Australian Academy Music Festivals, Catholic Colleges Festival and the City of Sydney Eisteddford.

Barrie is currently employed by the Education Queensland as an instrumental instructor, as a state examiner for the Australian Examinations Board and he also conducts the Salvation Army Brisbane City Temple Band.

KEN MACDONALD

Ken owes most of his success to his father, Stanley, who taught and encouraged him as a young boy. Stanley conducted many Brass Bands, composed and arranged and concentrated a lot of time to the development of younger players.

Ken was accepted into the National Youth Orchestra and Youth Brass Band of Great Britain after a series of auditions at the early age of 14.

In 1966 he was approached by Harry Mortimer to join one of his "MEN OF BRASS" Bands, Morris Motors, this was the beginning of his association with England's Top Bands.

Ken has played in the Grimethorpe Colliery Band as Principal Cornet and the renowned Black Dyke Mills Band involving contests, cutting numerous records, many television and radio appearances, and playing an average 80/100 concerts per year.

Ken has performed and made records with musical groups as diverse as the world famous London Symphony Orchestra to Paul McCartney and Wings. He has also performed at the celebrated "Henry Woods Promenade Concerts" at the Royal Albert Hall in London, toured America and nearly all of Europe, as well as playing for the Royal Family.

Since his arrival in Australia in 1983 Ken has played a significant part in the development of Concert and Brass Bands. He has adjudicated throughout Australia, Europe, America and New Zealand, making many guest appearances and has conducted seminars and workshops for Boosey & Hawkes and Yamaha. He took up the Musical Directors position with the Hawthorn City Band in 1985, leading them to 6 National Championships and many State and overseas titles, as well as tours to America and New Zealand.

Although throughout his life Ken has concentrated his efforts with Brass Bands, he has spent a lot of time involved with the development of Concert Bands. He is at present employed at Balwyn High School, and is Head of Brass, and Concert Band Co-Coordinator.

His inspiration, energy, experience and humour inspire everyone who comes in contact with him.

He is well respected as an astute adjudicator and examiner and has continued through the years to give helpful and instructive comments.

WILLIAM BROUGHTON

As a new permanent resident of Adelaide Australia, William Broughton spends his time composing and arranging commissions for various genres in orchestra, concert band, brass band, big band and other musical groups. He is part-time lecturer at Adelaide University Elder School of Music with large and small ensembles, composition/arranging, film scoring, one to one tutoring and brass master classes. He also travels interstate lecturing at other schools, performing as conductor and soloist as well as giving motivational presentations.

Bill began his career as a studio musician in 1968 and soon was playing lead trombone for most of the television and motion picture studios in Hollywood. With encouragement from David Rose, Lalo Schiffrin and Morton Stevens, Bill moved easily into the next phase of his career composing for shows like "Quincy, M.E.," "Hawaii 5-0," "BJ and the Bear," and "The Tonight Show," He also had several Symphonic and other commissioned compositions premiered as well and completed a major production for Disney in Orlando, Florida.

In October 1994, Intersound International released six albums entitled The Magic of The Movies with Bill as artist and conductor. He arranged and compiled complete scores and orchestrations for full orchestra, many from the original sound tracks, then conducted the National Symphony of Mexico (The Orchestra Of The Americas) in the recording. As if that's not enough, Bill has written and performed on the albums "Spiritual To The Bone," and "Spiritual To The Bone 2," two jazz albums of all trombone artists that has been given rave reviews by professionals in the industry, including Billboard Magazine.

In March 1996, Bill was hired to be the Music Director for the opening and closing ceremonies for the 1996 Atlanta Paralympics Games. The Rochester Symphony (New York), San Diego Symphony and Mexico City Philharmonic have all recorded Broughton's music.

Bill has also made solo/lecture tours to Japan, Australia, Norway, The Netherlands, Sweden and the UK.

5 REASONS TO SELECT YAMAHA INSTRUMENTS

Yamaha's product development philosophy has massive benefits for students. Our "top down" approach means that we first develop the professional models, using all the resources at our disposal, including close consultancy with professional artists. Having perfected the "leading edge" instrument, economies of scale are then applied to produce student models. Here are just a few of the advantages of Yamaha's approach:

EASY TO PLAY

There's nothing more likely to put off a student in their first few lessons than an instrument that is difficult to play. Teachers agree that Yamaha student brass and woodwind models offer the best chance for young instrumentalists to progress to higher levels of achievement. Easy blowing and airtight engineering ensure the beginner's first experience is one they will wish to repeat!

DURABILITY

Everything Yamaha produces is built to last. The economic argument for longevity is obvious. The reduction in whole life costs delivers massive benefits to those charged with maintaining large numbers of instruments. Thanks to uncompromised production techniques honed over many decades, Yamaha brass and woodwind instruments can offer extended service over many years.

TUNING

Yamaha prides itself on over a century of crafting fine instruments. And we are equally proud of the technological advances we have made along the way. Every instrument we make is tested by hand before it leaves our workshops. Add-

itionally, computer measuring and testing equipment is employed where it can offer improvements over manual methods. One of the principal areas in which the benefits of this approach can be heard is in the tuning of our brass and woodwind instruments. Even seasoned professionals have been amazed at the accuracy achieved in Yamaha student models. That's good news for student and teacher alike as lesson time and practice can be focussed on learning rather than compensating for an inferior instrument.

LOW MAINTENANCE COSTS

Instruments designed and engineered to such meticulous standards are subject to less wear and stress than others. Consequently, maintenance becomes a minor or even non-existent consideration. Technicians are able to complete routine maintenance on Yamaha instruments in far less time than other makes, resulting in great overall savings and less down time.

A SOUND INVESTMENT

A musical instrument that is easy to play, durable, plays in tune and requires little maintenance has got to be a desirable one for the student musician. But what about those responsible for specifying Yamaha? There are instruments available with a lower initial cost. Can money be saved by choosing them? We think that, in the majority of cases, the answer is no. When costs over the whole life of the instrument are considered and the rewards in terms of student achievement added, the argument for choosing Yamaha is, we believe, compelling.

A Yamaha student instrument will facilitate the unimpeded development of the student. It will allow the teacher to concentrate on teaching, not adjusting or compensating. It will perform flawlessly "straight out of the box" and require minimal maintenance. It will give many years of quality service allowing its initial cost to be recovered over a longer period. It is a sound investment.
